

Kick-off meeting  
Flipping Framework  
Including VET  
Resources for Social  
Training

## Flipping the classroom flipping the methodology

The 'Flipped Classroom' or Inverted Classroom, is a way of organizing the school work associated with the work of J. Wesley Baker presented in 2000, where learning management tools based on the web were used to create the concept. Usually, Jonathan Bergmann and Aaron Sams, both North American chemistry teachers, are frequently quoted as the pioneers of the application of the concept of Flipping Learning. In 2012 they decided to create a nonprofit organization Flipped Learning Network (FLN), whose website

(<http://flippedlearning.org/>) is a good archive of literature and resources for those who wish to learn more about Flipped Classroom.

If you are considering a change in your classroom, maybe our project can be a good opportunity to start with the Flipped Classroom concept.

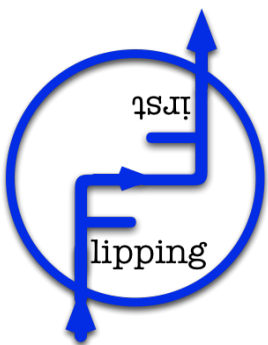

In Flipping First we will provide teachers with the required training to understand what to do and how to do it along with which tools can be used for it. All the training for the teacher will be free: with the training being delivered online, it will be as flexible as possible allowing the participation of all the interested teachers, with those schools really involved in the project there might be the possibility of having real time training.

The areas we will work with teachers are:

- Multiple Intelligences
- Active Methodologies (Project Based Learning & Service Based Learning)
- Flipped Classroom
- ePortfolio
- Camtasia
- Learning Platforms
- Prezi and Videoscribe

If you are interested, in being an associated school please fill in the form

And stayed tuned for the next newsletter where we will explain what resources we will prepare for you to work with your students.

## Teachers training and student resources

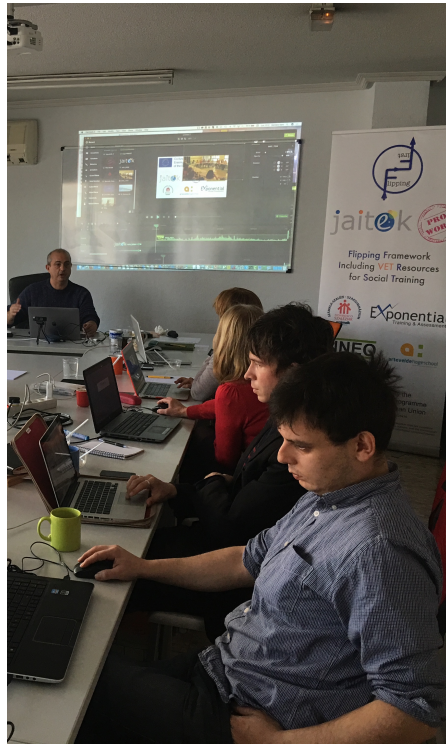

In Flipping First we are creating resources for the teachers in the following subjects:

- Flipped Classroom
- Project Based Learning
- Service Based Learning
- ePortfolio
- Multiple Intelligences
- Tools for flipping the classroom

If you are interested in participating in these courses, all of them online and free, contact the partner in your country to do so.

Courses will start in June and September

And later, resources for your students. Keep posted...

If you want to learn how to flip your classroom you can participate in our online courses for teachers and learn the methodology and tools to use.

You will also get resources to flip the classroom with your students in entrepreneurship and tourism. You only have to concentrate on testing the methodology.

## The partners

### JAITEK Technology and Training Limited

Jaitek is a Limited Company with a big expertise in eLearning and ICT training with technical and pedagogical implementations in educational institutions (of all educational levels) . The company provides consulting, implements and validates eLearning environments. Here we deal with both the Instructional Design of courses and the customization of eLearning Platforms, mainly Moodle. Besides we also work with other platforms as Joomla, Mahara, Wordpress or Elgg.

We have also experience in training abilities (communication, emotional education, burn-out...) and active methodologies and ICT in education.

Jaitek is the coordinator of the Flipping First project. Responsible for the technology and paltforms used, and also the teachers training.
